Chemistry 699: Graduate Thesis
Syllabus
Spring, 2004

Instructor: David Butcher
Where to find me: BK 289 (office), phone: 7646 (office), 3808 (direct line)
ST-348 (research lab), phone: 3901
E-mail: butcher@email.wcu.edu
Office Hours: MWF 10:00-11:00
Meeting Times: To be announced.

Course Description: This course involves the writing of a graduate research project into a thesis.

Expectations: You need to treat this course as you do any other; that is you need to spend a predictable and consistent amount of time working on your thesis. The expectation for this course is that you will spend at least 9 hours each week working on your thesis. However, you also need to be flexible with those hours.

Evaluation: Although the graduate program coordinator serves as the instructor of record for this course, the grade is assigned by your research director. Your grade in this research course is based upon the quality of your written thesis. Please note you will not receive a grade for this course until the final copy of your thesis is turned into the graduate school.

Grading

Thesis 100 %
Weekly Graduate Research Report Sheet

Name: ___________________________  Director: ___________________________

Project: ___________________________  Week: ___________________________

Research Notebook ID: _____________  Notebook Pages: _________________

Objectives (may include planning, writing prospectus, doing experiments, writing thesis):

1. 

2. 

3. 

4. 

5. 

Work performed to achieve objectives (may include planning, writing prospectus, doing experiments, writing thesis):

1. 

2. 

3. 

4. 

5.
