

## Embedding YouTube videos in PowerPoint 2007 for use when presenting with a live Internet connection

1. Copy the URL of the YouTube video you want to embed from a web browser.

2. Open a PowerPoint presentation and go to a slide where you want to embed the video.
3. Click on the Office icon on the top left hand corner of the screen and choose **PowerPoint Options** at the bottom.

4. Check the **Show Developer tab in the Ribbon** checkbox and click on **OK**.

5. Click on the **Developer** tab.
6. Click on the **More Controls** icon.

13. Scroll down to select **Shockwave Flash Object** and click on **OK**.

14. Click on the slide and draw a rectangle the size of the YouTube video you want to embed.  
(Drag the cursor from the upper left hand corner to the lower right hand corner.)
15. Right-click on the rectangle and choose **Properties**.

7. Click on **Movie** and paste the URL of the YouTube movie that you want to embed in the cell next to it.
8. Change the URL pasted by deleting **watch?** and replacing **=** with **/**. (Be careful not to delete **v.**)
9. Set the **EmbedMovie** property to false by clicking on **EmbedMovie** and then choosing **False** from the drop-down menu in the cell next to it.
